

# HUGO DUARTE

FULL STACK DEVELOPER

Phone: 938097868

Email: hello@hsduarte.com

## PROFILE

I'm a full-stack developer with 5+ years of experience building reliable, scalable systems. My core strengths are Java/Spring Boot on the backend and TypeScript/JavaScript on the frontend with Angular. I design and deliver microservices, containerized and orchestrated with Kubernetes, and deploy to AWS using CI/CD and infrastructure as code. I'm comfortable defining service boundaries, modeling data, and building secure, well-tested APIs with observability baked in. Academia de Código graduate who thrives in fast-moving teams and owns features end-to-end from architecture through production.
